

The aim of the Virtual Schneider Project is to recreate the whole Schneider Trophy Contest of 1929 as freeware for FS2004. The project will comprise a large collection of aircraft, scenery, documents and other items to be released as modules throughout 2004. Our plans at present are to release the various modules as follows:

• Original contest articles	Available now
• Contest circuit scenery	Available now
• Supermarine Rolls-Royce S6	Available now
• Macchi M67	Available now
• Calshot seaplane base	Available now
• Macchi M52R	Available now
• Gloster Napier GVI	Available now
• Supermarine Napier S5	Available now
• Additional scenery – ships & landmarks	Available now
• Savoia Marchetti S65	Available now
• Nieuport Nid450	Available now
• Bernard HV120	Available now
• FIAT C29	Autumn 2005
• Mercury Williams Racer	Autumn 2005
• Additional scenery	tba

Check our website www.transglobalaircraft.co.uk for updates, announcements and the latest release schedule.

The original concept for the Virtual Schneider Project (VSP) came from our small TransGlobalAircraft (TGA) team with the intention that it should be a collaborative effort where we would invite other freeware designers to join us and contribute their time and skills. This has proven to be highly successful and we are very pleased to have been joined by several other enthusiastic freeware developers with whom it is a pleasure to be working. At the present time our team is:

Bob Hazeldine	TGA webmaster, test pilot, gauge/panel builder and scenery builder.
Brian Horsey	TGA flight dynamics specialist
Ralph Pegram	TGA & VSP team leader, aircraft designer and scenery builder
Elias Korompilis	VSP team member, aircraft designer
Barrie Semmens	VSP team member, scenery builder
Massimo Taccoli	VSP team member, aircraft designer
Matthew Paine	VSP team member, aircraft designer
Lee Holmes	VSP team member, aircraft designer
Ian Willis	VSP team member, gauges and panels
